

# Climate change: How is it impacting Hawai'i?

*A presentation by Dr. Chip Fletcher,  
School of Ocean and Earth Science and Technology,  
University of Hawai'i at Mānoa*

**Tuesday, July 25  
3-5 p.m.**

Waimea Middle School Cafeteria  
67-1229 Māmalahoa Hwy  
Waimea, Hawai'i Island

*Free and open to the public  
Light refreshments will be served*

Dr. Fletcher will discuss several aspects of climate change in an interactive discussion and question-and-answer session with the community. Topics include:

- Extreme weather
- Sea-level rise
- Reef bleaching
- Ecosystem impacts
- Declining rainfall
- El Niño
- Hawai'i's weather system
- Natural climate change

These and other topics will be discussed in clear, understandable terms to benefit the entire community. This is a great starting point for educators interested in incorporating climate-change science into their curricula.
