QuickBooks is an accounting and bookkeeping computer program that helps businesses track income and expenses, create invoices and statements, and produce financial statements. The workshops will provide an introduction to QuickBooks to help farmers and food producers decide if the software is right for them.

The workshops will also provide an overview of federal crop insurance programs. For more information, visit kohalacenter.org/cropinsurance.

Registration is free but space is limited. To register, please contact Hanna Bree at hbree@kohalacenter.org or 808-887-6411.
